# KONICA 7035

**YOU'RE A SMALL OFFICE.  
YOU HAVE BIG NEEDS JUST  
LIKE LARGE OFFICES, BUT  
WITHOUT SPACE TO WASTE.**

You asked for a better machine that is sized for you and we went one step further. We developed the 7035 Digital Document System with multiple functions in a minimum of space without any sacrifices. It has all the power, functions and features your small office needs to get ahead, without taking up all of your floor space. In fact, the Konica 7035 is so good, you can even add options without adding to its size. It's the right fit for any office.

## FEATURES THAT PUT MANY LARGER MORE EXPENSIVE MACHINES TO SHAME

It might be small in size but it is big in features. In fact at Konica we believe in building devices that can live harmoniously in the one office. This includes things such as standard user interfaces and common features on all machines. The Konica 7035 is no exception to this rule. This means that digital features like watermarking, booklet mode, book copying and many more are available just like its larger Konica cousins.

## COPYING AND PRINTING

- Real-time document production with direct duplexing
- 35 A4 sheets per minute with 600 dpi resolution
- Booklet production
